The Old Reliable Jewelry House

of Hopkinsville is, after all, the best place to get anything in the Jewelry line. There's a record behind us, a record of over thirty years; a clean record of satisfied customers, a record of honest dealing, for honest quality, honest prices. It's a record any Jeweler might feel proud of. And when we sell an article we have in mind that we have a record to maintain, and no slipshod methods, no careless workmanship, no lack of quality, is ever allowed to mar the record of the past. But to improve, if possible, this record, is ever our aim, and goods are sold for as low a price as it is possible to sell reliable goods.

It will pay you in the end to deal with the Old Reliable Jeweler.

ALL SHOWS OPEN TODAY

Fall Festival Features Cannot Fail to Draw Freely.

SWELL GREAT CROWD.

If Weather Continues Good Big Success is Assured.

Shows for the great Fall Festival and County Fair came in yesterday on every train. Some of them were late arriving on account of the delayed trains on both roads, but they all "got here all the same." Of course they were a little late in getting up their canvasses, but that could not be avoided.

Everything will be in full running order today and visitors are assured by those having the matter in hand that every exhibition merits their most liberal patronage. The specialties are of a high order, the free attractions are of a superior character and the Fraternal Union has done everything in its power to furnish the people with the best of everything to be obtained. There is no connection between any of the eighteen or twenty attractions, and everybody may expect a glorious time during the entire week. Should the weather clerk give us such weather as he furnished yesterday, thousands of people will go out to Mercer Park every day. The managers expected to offer an extra inducement last night by having Lebkuecher's band treat them to an open air concert. The band is the best musical organization, probably, that the city has ever had. It is really one of the city's institutions, or should be, and the people appreciate it and everybody ought to encourage it. The members of the band are all gentlemen and industrious citizens and it is to be hoped that the organization will remain intact for many years yet to come. Everybody is invited to go out to the Festival grounds and swell the crowd to immense proportions. This is the last thing of its kind for the remainder of the year, and if you let this week's event pass to obtain recreation your chances are gone. Turn out and encourage an order the principles of which appeal to every good parent and citizen.

MORE TOBACCO BURNS.

Barn in North-east Christian Destroyed by Flames.

A tobacco barn containing ten acres of the weed, the property of Mr. Samuel Johnson, of the Johnson's Mill country, north-east Christian, was destroyed by fire a few nights ago. The barn caught while the tobacco was being "fired" and the building and its contents were reduced to ashes in a very few minutes. Mr. Johnson is an extensive grower and the tobacco destroyed represents only a portion of his crop. His loss is about \$800.

AT BAPTIST CHURCH

Rev. S. J. Cannon Preached Two Sermons Sunday.

Rev. S. J. Cannon, of Elkton, supplied the pulpit at the Baptist church Sunday morning and evening, preaching to large congregations at both services. Dr. Cannon is one of the ablest ministers of the Bethel Association and his sermons were strong and earnest discourses.

Only Two.

Since our last issue only two arrests have been made by the police, one for drunkenness and one for breach of the peace. It is expected that "business will pick up" by the end of the week, as this is Festival week.

GOOD WORK BY CONVENTION

Resume of the Matters That Were Acted Upon Last Week.

STATE DEVELOPMENT.

Commission Will See That Kentucky Is Represented At Jamestown.

Winchester, Ky., Oct. 15.—Having surpassed all previous meetings of the kind in point of important work accomplished, the Fifth State Development convention, which was declared adjourned here last week by Senator William Lindsay, the chairman, is believed to have marked the beginning of a new era of systematic advancement of the various industries and resources of Kentucky.

"It has been the greatest convention of the kind ever held," said Captain W. J. Stone, chairman of the State executive committee. "We have done more work and have placed the development of the State in the hands of a permanent organization, which will make possible the successful handling of all big matters in a business like and positive fashion. The results of this convention are too great to be realized at this time."

What Convention Did.

Following is a resume of the more important matters on which the convention took action.

Creation of a permanent organization, with headquarters in Louisville. Appointment of a commission representing the state at large for the purpose of providing a Kentucky exhibit at the Jamestown exposition.

Opening of a more vigorous campaign for reformation of the tax system of Kentucky, and the appointment of a representative committee to undertake the work.

Request that the general assembly make more liberal appropriation for the state college, in the interest of the education of young men in lines of scientific agriculture.

Expression of indorsement of the state geological survey for the work accomplished by it, and a recommendation that it be given more financial encouragement.

Indorsement of a plan for inducing desirable immigration to Kentucky.

HAYDON TRIAL IS UNDER WAY

Jury Made Up With Little Delay Yesterday.

BIG ARRAY OF COUNSEL.

Policeman Amos R. Haydon Charged With Killing John Coleman, Col., June 1.

The trial of officer Amos Haydon was begun yesterday and in an hour's time the following jury was made up:

P. C. Crews, Joe Pace, Bud King, T. C. Harry, J. E. Hays, John McGee, Marion West, J. T. East, Chas. Spurlin, W. R. West, Jno. W. Tucker and Walter Faulkner. All but the last three were from the regular panel.

Haydon is a policeman who was at the carnival held at Mercer Park on the night of June 1st, off duty, in citizens clothes. A negro named John Coleman broke down a panel of the fence in climbing over and fell inside. He jumped up and ran into the crowd pursued by two officers. He ran through the crowd when Haydon joined in the pursuit and chased him between two tents calling to him to halt and fired two shots in the air to stop him. A third shot was fired by some one else at the negro and he fell mortally wounded. He died the next morning. Haydon handed his pistol to an officer and it had only two empty cartridges. He was indicted for involuntary manslaughter.

There are more than fifty witnesses in the case and many lawyers. Commonwealth's attorney Smith and County Attorney Duffy are assisted by Polk Cansler and L. Yonts.

The defense is represented by Brechtitt and Bell, John Feland and Southall and Son. The defense will be that some other person than Haydon shot Coleman.

The trial will occupy two or three days. Haydon is under bond and will remain so during the trial.

Grand Jury Adjourns.

The grand jury adjourned Saturday, after finding 100 indictments. Among the last batch were indictments against the Acme, Crescent and Hopkinsville mills, charging an unlawful conspiracy to raise the price of bran and for violating the law in not labeling sacks of bran, giving an analysis of the contents. Several doctors at Crofton were indicted for giving prescriptions for Sunday liquor drinking.

FELL ON HIS HEAD

And Youth Was Quite Badly Injured.

Dennis Jenkins, aged 14, who resides on Durrett avenue, was the victim of a very painful accident Friday. He was riding horseback when the animal became frightened and started to run off. The horse fell and the rider was thrown violently to the ground. Jenkins fell on his head and his neck was hurt quite badly. He also sustained several ugly bruises on his face. His injuries will lay him up several days. The horse also injured himself in the fall. Had it not been for a stiff-brimmed cap, which partially broke the force of the fall, the youth's neck would probably have been broken. As it was he had a very close call with his life.

Married Monday.

Mr. Fred S. Calhoun and Mrs. L. F. Worthan were married yesterday at the residence of Mr. Myers on Elm street. The bride has been employed in the dry goods department at Anderson's and the groom employed by the I. C. railroad company as a carpenter. Rev. J. M. Rasmus officiated.

STORE NEWS

At Anderson's.

The opening is over and now we are settling down to work in earnest. The season is right on us and customers should attend to their wants at once to get choice of styles. Our Ready-to-Wear Department is receiving something new every day. Specials in this department can be furnished very promptly now, but a couple of weeks from now it will require twice as long. The \$5.00 fine All Wool Long Coats and the \$10.00 Fine All Wool Lymanville Storm Serge Suits we are showing will cost half as much more at any other store, and so they will at our store when our present stock is sold out.

Our Shoe... Department.

Was never so well equipped to supply the wants of all classes as it is to-day. Prices are some higher, but you may depend upon the quality being the same as heretofore. Any merchant who offers to sell the same shoes at old prices to-day has either been swindling his customers in the past by charging more than the shoes were worth, or is deceiving them as to the quality.

Winter Underwear

This is the month to buy Winter Underwear. Our stock is complete and has all sizes from infant's to the largest men and women. Some special bargains in men's extra sizes.

Evening Slippers

In all colors were received this week and if you will bring a sample of your gown we will match it perfectly.

Second Shipment

Of Knox Derbys will arrive in a few days.

Kentucky Presbyterians are to
have a great world's college at
Danville. This was decided by the
two synods of the state, the Northern
synod meeting at Louisville and the
Southern synod in Henderson. Each

the project, which contemplates the
use of Caldwell College and the
erection of additional buildings on

Deafness Cannot be Cured

by local applications, as they cannot
reach the diseased part of the ear.
There is only one way to cure deafness,
and that is by constitutional
remedies. Deafness is cured by an
inflamed condition of the mucous lining
of the Eustachian Tube. When this
tube is inflamed you have a
rumbling sound or imperfect hearing,
and when it is entirely closed,
deafness is the result, and unless
the inflammation can be taken out
and this tube restored to its normal
condition, hearing will be destroyed
forever; nine cases out of ten are
caused by catarrh, which is nothing
but an inflamed condition of the
mucous surfaces.

We will give One Hundred Dollars

by catarrh) that cannot be cured by

Representative John Wesley
Gaines, of Tennessee, has dug up an
old senate committee report which
appears to establish a precedent,
on the authority of both Democratic
and Republican leaders, of W. J.
Bryan's suggestion of the ultimate
ownership by the governments, state
and national, of the railroads. The
report was made in 1886 and was
signed by three Republicans and two
Democrats. The signers were Cul-
lum, of Illinois; Platt, of Connecti-
cut, and Miller, of New York. Rep-
ublicans, and Gorman, of Maryland,
and Harris, of Tennessee, Democ-
rats. The report advances the
opinion that it will probably be found
necessary, ultimately, to place all
railroads under government own-
ership. This appears, says the report,
to be the best means for obtaining
the highest perfection in service and
for maintaining uniform and equitable
rates.

Stories of newspaper life that
have made any lasting impression are
few. One that will be certain to be
remembered opens the October num-
ber of the Smart Set. William R.
Lighthill is the author, and he has
chosen the appropriate title of "The
Rules of the Game." The great hu-
man note in the story will make a
strong appeal to every reader, and
the clever way in which the plot is
manipulated will win admiration.

TRAMPS IN WRECK.

Broken Flange Causes Train
to Leave Trestle.

Henderson, Ky., Oct. 13.—Fifteen
freight cars on the L. & N., about
midnight left the track on the trestle
on the Indiana side of the bridge
across the Ohio river at this point,
as the result of a broken wheel
flange.

Several tramps were known to
have been riding on the train and
two were extricated from the wreck-
age this morning and taken to the
City Hospital at Evansville. Both
had legs crushed and amputation
was necessary. They refused to
state their names. About a dozen
others are believed to be under the
debris. The train crew escaped
practically unhurt.

Over a hundred feet of the trestle
was completely demolished.

DATE OF REUNION

Of Confederate Veterans Has

General William E. Mickie, Adjutant
General, has made official an-
nouncement that the seventeenth
annual reunion of the United Con-
federate Veterans will be held in
Richmond, Va., May 30, 31 and June
1, 2 and 3, 1907. At the reunion at
New Orleans this year the place of
next year's meeting was selected,
but the date was not decided upon
at that time and it has just been
announced.

STONEWALL JACKSON

Subject of Lecture to Be De-
livered Tonight.

Col. Geo. M. Edgar, of Lexington,
Ky., will deliver his lecture, "Stone-
wall Jackson," under the auspices of
the Confederate Veterans and the
Daughters of the Confederacy, at
7:30 p. m. Tuesday, the 16th inst., at
the 9th Street Presbyterian church.

This lecture has been highly com-
mended by the press of Central Ken-
tucky and of the Virginias as taking
rank with the best on the platform,
and is on a theme which should ap-
peal to all who admire heroism and
exalted character united with the
highest order of military genius, and
Col. Edgar should be greeted by a
representative audience of Christian
county people.

The lecturer is well known by quite
a number of our people as a man
who has achieved distinction both as
soldier and educator, and few are so
well qualified to discuss the charac-
ter and achievements of the great
hero, whom he knew personally—
having been his pupil at the Virginia
Military Institute. An admission of
50 cents will be charged.

We append some press notices of
the lecture selected from many:

Col. G. M. Edgar lectured at Curry
Hall Friday night on Stonewall Jack-
son. Those who were present enjoyed
the able address delivered by one so
thoroughly familiar with so great a
subject. Col. Edgar is a most pleas-
ing speaker and presents his views
quite forcefully. He is certain to
make a great platform success of this
new lecture on the great military
genius of the South.—Lexington,
Ky., Leader.

Those who failed to hear the splen-
did address of Col. Edgar at the
court house last Tuesday night
missed a rare treat.

From a literary standpoint it was
eloquent, dramatic and inspiring; the
historical setting was accurate, faith-
ful and impartial, and as a delineation
of the superb character of Stone-
wall Jackson it was masterly and
complete.—Hinton, W. Va., Leader.

Before a Representative, deeply
interested audience, which he held in
the closest attention, Col. George M.
Edgar delivered his superb lecture
on Stonewall Jackson in the Town
Hall here last Friday evening. By
unanimous verdict it was pronounced
excellent from every view point. The
lecture was not simply a panegyric
on a great soldier, but a discriminating
military criticism of Jackson's
wonderful campaigns, showing his
incomparable genius for war and his
skill as a strategist.—Greenbrier, W.
Va., Independent.

Saturday to Jas. K. Thomas and
Miss Alice Capp. The young peo-
ple live near Carl and the wedding
was scheduled to take place Sunday
at the home of the bride's parents.

One Cold and Another

The season's first cold
may be slight—may yield
to early treatment, but the
next cold will hang on
longer; it will be more
troublesome, too. Un-
necessary to take chances
on that second one. Scott's
Emulsion is a preventive
as well as a cure. Take

SCOTT'S EMULSION

when colds abound and
you'll have no cold. Take it
when the cold is contracted
and it checks inflammation,
heals the membranes
of the throat and lungs
and drives the cold out.

DO YOU GET UP

WITH A LAME BACK?

Kidney Trouble Makes You Miserable.

Almost everybody who reads the news-
papers is sure to know of the wonderful
cures made by Dr.
Kilmer's Swamp-Root, the great kidney,
liver and bladder
remedy.

It is the great med-
ical triumph of the
nineteenth century;
discovered after years
of scientific research
by Dr. Kilmer, the
eminent kidney and
bladder specialist, and is wonderfully
successful in promptly curing lame back,
uric acid, catarrh of the bladder and
Bright's Disease, which is the worst
form of kidney trouble.

Dr. Kilmer's Swamp-Root is not rec-
ommended for everything but if you have
kidney, liver or bladder trouble it will be
found just the remedy you need. It has
been tested in so many ways, in hospital
work and in private practice, and has
proved so successful in every case that a
special arrangement has been made by
which all readers of this paper, who have
not already tried it, may have a sample
bottle sent free by mail, also a book tell-
ing more about Swamp-Root, and how to
find out if you have kidney or bladder trou-
ble. When writing mention reading this
generous offer in this paper and send your
address to Dr. Kilmer
& Co., Binghamton,
N. Y. The regular
fifty-cent and one-
dollar size bottles are
sent by all good druggists. Don't make
any mistake, but remember the name,
Swamp-Root, Dr. Kilmer's Swamp-Root,
and the address, Binghamton, N. Y., on
every bottle.

WRONG NEGRO

Arrested As a Suspect Near
Cerulean Springs.

A negro bearing some resemblance
to Godfrey Ray, the negro who
killed Marshal Dickinson at Trenton
Sept. 8, was arrested near Cerulean
Saturday and brought here at 6:35
the same evening for identification.
The negro was in charge of J. B.
Thom and Mr. Barefield. He was
taken to police headquarters, but it
was soon established that he was
not the man wanted for the murder
of the officer and he was turned
loose.

The negro was a stranger in the
Cerulean neighborhood and had
been in that section since a few days
after the Trenton tragedy. While
he did not answer fully the descrip-
tion of Ray, suspicion was strong
that he was the man and he was taken
into custody. When he was arrested
he disclaimed any knowledge of the
affair, said that he had never been
in Trenton, and professed his will-
ingness to be taken to that place,
provided he would be properly pro-
tected. When released he immedi-
ately left for Cerulean.

Human Blood Marks.

A tale of horror was told by marks
of human blood in the home of J.
W. Williams, a well known merch-
ant, of Bar, Ky. He writes: "Twen-
ty years ago I had severe hemorrhage
of the lungs, and was near death,
when I began taking Dr. King's
New Discovery. It completely cured
me and I have remained well ever
since." It cures hemorrhoids, chron-
ic coughs, settled colds and bron-
chitis, and is the only known cure
for weak lungs. Every bottle guar-
anteed by R. C. Hardwick, druggist.
50c and \$1. Trial bottle free.

Horse Was Drowned.

A horse belonging to "Thuse"
Dillard, colored, was drowned in
Little River, near Jones' mill, Sat-
urday. The animal was being led
behind a buggy and breaking away
ran down the bank and jumped in-
to the stream. The water was deep
and the horse was unable to ascend
the steep and slippery bank.

Devil's Island Torture

Is no worse than the terrible case of
piles that afflicted me 10 years. Then
I was advised to apply Fiebigler's
Arnica Salve, and less than a box
permanently cured me, writes L. S.
Napier, of Rugles, Ky. It heals all
cure for burns and sores like magic.

Will be a Success.

Judging from the number of sub-
scriptions coming in for copies of
our new city directory we will
doubtless have to print a larger
edition than was at first proposed.
This, while gratifying, is not at all
surprising, as the price of \$1.00 per
volume is less than one-half the cost
of similar books in other cities and
our citizens appear to appreciate
this fact.

A Lucky Postmistress.

Is Mrs. Alexander, of Cary, Me.,
who has found Dr. King's New Life
Pills to be the best remedy she ever
tried for keeping the stomach, liver
and bowels in perfect order. You'll
agree with her if you try these pain-
less purifiers that infuse new life,
guaranteed by R. C. Hardwick,
druggist. Price 25c.

November Smart Set.

"The Conflict," by Emma Wolf, which is the novelette opening the November number of the Smart Set, is a story remarkably new in plot and treatment. It concerns the two distinct personalities which the heroine, a young, married woman, discovers that she possesses. Her wonderful alter ego is encouraged and developed by her, and the strange complication which results is highly and skillfully brought about. Miss Wolf, through this revelette, will find herself occupying a high place among the younger American writers. Jack London contributes a rattling good story to this issue—one out of his usual vein, but brimful of interest. It is called "A wicked Woman." Inez Haynes Gillmore has a real ghost-story, "The Dead-Line," which will create a great deal of discussion, and there are many other stories that are just as interesting.

NEGRO PROBLEM

Attracting Attention of Georgia's Wisest Statesmen.

LaGrange, Ga., Oct. 10.—At the Georgia home-coming exercises here today Governor-elect Hoke Smith delivered an address on the race question in the South, in which he said that the fourteenth amendment to the constitution hinders the most intelligent mode of handling the subject.

"Our national government," Mr. Smith continued, "has always legislated for the Indians, placing around them restrictions entirely different from those applied to white men. But for the fourteenth amendment to the constitution, we should follow the same plan in Georgia with reference to the negroes. The white man must accept full responsibility and control of the situation. This is the white man's country, and it is the white man's burden. The negro should be encouraged to help. Kindly but firmly the large majority of negroes must be supervised and directed by the white man. The fact should be kept in mind that a very large number of negroes are irresponsible, and when left in idleness are prone to crime. We must exhaust all legal means to save negroes from idleness."

Governor Smith advocated stricter laws and the arrest of loafing, wandering negroes as probable criminals. He also said the system of negro education should be changed, and that honest labor should be taught as being more important than knowledge acquired from books.

DIES OF APOPLEXY.

Matt. E. Ham Expires Suddenly in Paducah.

Mathew E. Ham, of Paducah, formerly of this city, died suddenly Saturday morning at his home, of apoplexy. He had been in bad health for several days, and about 2:00 o'clock in the morning he arose. While sitting on a trunk he fell to the floor and expired in a few minutes. He weighed about three hundred pounds and the noise of his fall attracted members of the family.

Mr. Ham was 44 years old and was born at Paradise, Muhlenburg county. He was for some time engaged in business in Hopkinsville and later sold goods at Beverly and Julien. For the past fifteen years he had been a traveling salesman, with headquarters the most of the time at Paducah. Hopkinsville was included in his territory and he was here on a business trip not long ago.

He is survived by a widow, who was formerly Miss Lena Ewell, and two daughters, Miss Caroline Ham, teacher of music in the public school of Paducah, and Miss Ewell Ham. He is also survived by a brother, Luther Ham, who lives in Muhlenburg county.

The interment took place in Paducah Sunday.

LEFT SUNDAY

Uniform Rank Knights* of Pythias Now in New Orleans.

Crowd at I. C. Depot Sunday to Bid Them Goodbye.

The usual crowd at the I. C. depot was greatly augmented Sunday by the presence of the relatives and friends of the members of the Uniform Rank Knights of Pythias, who left on the 3:30 p. m. train for New Orleans, where they will go into camp and remain during the week. The Knights, 23 in number, were in high good humor and were sanguine as to putting up a good drill. They were well provided with everything that might contribute to make the trip altogether and agreeable.

At Princeton their car was attached to a fast train, and if nothing intervened to cause delay they arrived at their destination yesterday morning at 10:30.

Following is the list of gentlemen composing the party:

Capt., C. O. Prowse; 1st Lieut., J. W. Stowe; 2d Lieut., C. M. Hill; 1st Sergeant, S. H. McCulloch; 2d Sergeant, Carl Keach; 3d Sergeant, C. E. Harris; 4th Sergeant, L. E. Fowler; C. Sergeant, R. M. Tunks; color bearer, A. T. Barbee; Privates: J. T. Watson, V. W. Atkinson, Max J. Moayon, E. J. Schmidt, C. H. Stowe, F. B. Caudle, D. C. Cary, R. M. Dorr, L. E. Adwell, W. W. Walker, A. M. Coleman, W. J. Powell and C. E. West, Jr.

Dr. J. P. Peyton will move his family to the city about the first of next month. He will occupy one of the Starling cottages on north Main street.

WORST ECZEMA DOCTORS EVER SAW

Spread Rapidly Over Body—Limbs and Arms Had to Be Bandaged and Scalp Looked Dreadful—Suffered Untold Misery for Three Years—Better in Two Months

MARVELOUS CURE BY CUTICURA REMEDIES

"My son, who is now twenty-two years of age, when he was four months old began to have eczema on his face, spreading quite rapidly until he was nearly covered. We had all the doctors around us and some from larger places, but no one helped him a particle. The eczema was something terrible, and the doctors said it was the worst case they ever saw. At times his whole body and face were covered, all but his feet. I had to bandage his limbs and arms; his scalp was so sore that I used many kinds of patent medicines before trying the Cuticura Remedies, and all to no avail."

"A friend teased me to try Cuticura. At last I consented, when my boy was three years and four months old, having had eczema all that time, and suffering untold misery. I began to use all three of the Cuticura Remedies; the Cuticura Soap helped as well as the Ointment. He was better in two months; in six months he was well; but I gave him the Cuticura Resolvent one year, using twelve bottles. I think, and always used the Cuticura Soap for bathing, and do now a good deal. He was four years old before he was well, and his skin became perfectly fair when cured. I give you permission to publish this letter for I am always glad to do good when I can. I think I have told you all there is necessary to tell." Mrs. R. L. Riley, Oct. 24, 1905.

NEW PLANT LIFE

DR. MACDOUGAL SUCCEEDS IN ORIGINATING NEW SPECIES.

Marvels in Botanical Science Which the Director of the Carnegie Institute at Washington is Accomplishing.

The task of originating entirely new species of plants has been accomplished, and Dr. Daniel Tremble MacDougal, for years assistant director of the New York Botanical garden, several months ago appointed director of botanical research at the Carnegie Institution, in Washington, claims the honor of the discovery.

In his investigations on the origin of species Dr. MacDougal has pursued lines similar to those followed by Prof. Charles Leach, of the University of California, in his investigation of the origin of animal life, but Dr. Mac-

FLOWER WITH PETALS REMOVED.
(Pollen From the Anther (A) are Carried to the Stigma (B), Where the Pollen Cells Germinate and Send out a Long, Slender Tube, Which Penetrates the Stigma and Follows Down the Style (C) to the Ovary (D).)

MacDougal's experiments have been more radical and his success is established. It may be explained, so that the process of plant life is easily understood, that the ovaries of all evening primroses, for instance, the subjects of Dr. MacDougal's tests, contain 200 or 300 ovules, each of which includes one egg cell. Pollen cells from the anther of the flower are carried to its stigma by insects or by direct contact of the stamens and stigma. Then the pollen cells germinate and send out a long, slender tube which penetrates the stigma and follows down the style to the ovary, where the nucleus carried by the tube unites with the egg cell to form the fertilized egg. It is before the tube reaches the ovary that the injection is administered by Dr. MacDougal by means of a very fine hypodermic syringe.

In Dr. MacDougal's flower tests the action of the solutions on the egg cells was such that new qualities were added and some existing qualities destroyed or thrown into a latent condition. Fertilization taking place in the usual manner, the individual produced by these altered eggs differed notably from the parent that is to say, changes in the heredity of the organism were induced. The divergent individuals resulting from such experiments were healthy, reached maturity, bloomed, produced seed, and were perpetuating themselves. They were dwarf plants, about one-quarter the size of the parent.

It is believed to be the first conclusive proof yet obtained that agencies external to the cell may induce mutations, and consequently exert a profound influence upon heredity. Dr. MacDougal attends to the cultivation of his plantlets himself, allowing no one to touch them. As the plantlets appear he watches them carefully. If the leaves of a plantlet are similar to those of its parent that plantlet is pulled up and destroyed. Should the leaves show any variation it is allowed to grow until the gardener-scientist is able to satisfy himself beyond doubt that it is a new type. Then the plant is potted, ticked and preserved for the purpose of continued observation and experiment. In this way it is able to keep track of thousands of plantlets, and aside from the results obtained by treating ovaries with injections, has procured a dozen distinct species.

Sure of That.
I suppose you're a tenderfoot, preparing to mount the bucking broncho, 'this horse may behave all right with me and then again he may not."
"Well," replied the wise cowboy, "it's a toss up."—Fulton's Ledger.

The Young Physician.

WHAT HIS EXPERIENCE PROVED.

In the early sixties it was usually the duty of a practicing physician to ride many miles every day on his regular round of visits upon his patients. In those days a young man who had received a splendid medical training in one of the best medical colleges of that day was accustomed to ride ten, twenty, thirty miles or more visiting the sick and afflicted. His success was soon phenomenal. Doctors and families called him for consultation to towns at considerable distances by rail. His specialty was the cure of those common and distressing diseases of women. He had early discovered that by combining the extracts of the following medicinal plants, in just the right proportion, without the use of alcohol his "Prescription" almost invariably effected such cases. Later, in order to place this remedy before the public in a shape easily to be procured, he established a laboratory at Buffalo, N. Y., where regularly qualified chemists were put in charge to accurately prepare his "Prescription" and put it in shape for shipment to all parts of the world. This remedy, which he named Dr. Pierce's Favorite Prescription, is not a "patent medicine" but a tonic and nerve for women, and a regular physician's prescription, and contains the following ingredients: Lady's Slipper root, Black

Cornish root, Unicorn root, Blue Cohosh root, Indian Seal root, and chemically pure glycerine.
Dr. Pierce does not claim for his "Favorite Prescription" that it is a "cure-all." It is recommended as a most perfect tonic for women's general ailments. So uniform are the results which follow the use of this remarkable remedy, that it can be truly affirmed of "Favorite Prescription" that it "cures helps and almost cures" every ailment. Ninety per cent. of the women who give this medicine a fair and faithful trial are cured and remain cured.

It is a powerful invigorating tonic, imparting health and strength in particular to the womb and its appendages. The local, womanly health is so intimately related to the general health that when diseases of the delicate womanly organs are cured the whole body gains in health and strength. For weak and sickly females, for those who are "run down" or debilitated, especially for women who work in stores, office or schoolroom, who sit at the typewriter or sewing machine, or bear heavy household burdens, Dr. Pierce's Favorite Prescription will prove a priceless benefit because of its health-restoring and strength-giving power.

THE PROOF.
"I want to tell you of the great improvement in my health since taking your 'Favorite Prescription,'" says Mrs. H. B. Jones, of Forest, Conn. "I was in a very poor physical way and had departed of several good health. I could not sit up all day. I noted a great improvement before I had used a dozen bottles. I was suffering with almost every pain that a woman can experience, and in addition of the very painful and unpleasant periods, and other symptoms of female disorder. I took six bottles of 'Favorite Prescription' and I feel like a new person. My blood is purer, and I take all kinds of exercise and do not feel tired. Only one of two of these symptoms were cured. Pelvic inflammation, white, and sore throat, torpid liver and sluggish bowels. Little pill, little dose, produce great results. First put up by old Dr. R. V. Pierce, over 40 years ago. Much imitated but never equalled. Send 31 one-cent stamps to cover cost of mailing and get a copy of the 'Common Sense Medical Adviser,' over 1000 pages. Address Dr. R. V. Pierce, Buffalo, N. Y."

TO DIZZY HEIGHTS

PERILS WHICH THE MOUNTAIN CLIMBER ENCOUNTERS.

Duke of Abruzzi, Cousin of King of Italy, Wins New Honors in Scaling Mount Ruwenzori, in Africa.

New interest has been aroused in mountain climbing by the recent achievement by the duke of Abruzzi, who has just succeeded in scaling Mount Ruwenzori, in Africa. The feat was attended by many perilous feats, and the duke established a new record by scaling a peak 15,000 feet above the level of the sea.

Mountain climbing is a sport in which only those of the steadiest nerve and strongest physique can indulge successfully. It is one thing to follow a guide up over the mountain trail that has been made comparatively safe, and quite another to scale precipitous heights, where it would seem that not even an agile mountain goat could climb. In such climbing, death stalks constantly at one's side, and a misstep may plunge one down hundreds of feet to death.

Only the other day Max Eisler, a distinguished lawyer of Vienna, and a mountain climber of much experience, was climbing the Ruxalpe, about 50 miles from his home, when he misjudged a stone on which he attempted to support his weight. He thought it was firmly anchored in the mountain mass, but it was loose, slipped from under him, and the unfortunate mountaineer was dashed over a precipice and fell 500 feet to his death.

The hair of the greenhorn naturally stands on end when he sees men, hundreds of feet in the air, clinging to rock walls that are sometimes perfectly vertical, or it may be for a few feet, even overhanging; but overhanging walls are climbed every summer, and it is a fact that accidents seldom occur.

In our illustration we see a single member of a party of four Italian mountain climbers who were spending their summer holiday in the Alps. This picture was caught as they were clambering up the walls of the Aiguille Verte, near Mont Blanc. They followed the winding course of the Mont Blanc glacier up to the base of the great crystalline spire, which they intended to surmount. On the side of the needle where they had planned their ascent its broad base rises in a wall that approaches the

Scaling the Aiguille Verte, Near Mont Blanc.

vertical and in some places is actually vertical to a height of about 150 feet.

This wall had to be climbed, and for two hours the party was glued to the precipitous face of the rock before they reached the place above where the narrowing column was in a condition of greater disintegration, presenting many crevasses, cracks, ledges and steps, which greatly diminished the labor of the remainder of the ascent.

Above the point shown in the picture the party came to a ledge some two feet in width and only a few feet in length. The first man who clambered to the ledge examined the wall-front before him, and reported to his comrades below. He found a perfectly perpendicular face of granite, smooth and polished, without a single protuberance or crack that might be gripped by hands or feet. This impossible bit of rock rose to a height of about 12 feet, and the ledge was so short that there was no way to circumvent the smooth wall, which, as a climbing proposition was out of the question. The others crept up to the ledge and a council of war was held. It was decided that the impediment could be overcome.

The tallest man of the party took his place on the two-foot ledge, with his face and body pressed against the wall and his arms extended along it. Two of the men helped the next tallest to his shoulders, and he was able to get a good hand grip above and pull himself up to the top of the wall. Then the rope was brought into play, and the man above used it to make the ascent of the two other men easier from the shoulders that were doing such excellent service. The three men above then had no difficulty in pulling their comrades up to them, and the party went on its way rejoicing.

In rock climbing the descent is always more difficult than the ascent, and the rule is absolute among mountaineers that they must attempt no descent of this kind unless they are perfectly certain that they can make the descent.

SCHOOL MONEY

Delayed but Christian County Teachers Were Paid.

Money due teachers of the county schools for the first month's work was payable Saturday, but Superintendent Gray received a telegram from State Superintendent Fuqua stating that, on account of the sheriff's over the state not having settled, it was uncertain when the cash would be ready. However, through the efforts of Supt. Gray and the kindness of the First National Bank, Christian county teachers were paid their money promptly.

TORREY & ALEXANDER.

Will Hold Revival at Nashville Until Nov. 11.

The great evangelists, Torrey and Alexander, opened services at Ryman Auditorium, Nashville, Sunday night. The meetings will continue until November 11. The singing is to be under the direction of Mr. Alexander, assisted by a choir of 800 voices. Owing to the serious illness of Mrs. Alexander, Prof. Tanner will have charge of the singing until Mrs. Alexander improves.

The meetings have been extensively advertised and reduced rates will be given by all railroads running into Nashville. Quite a number of people here have already signified their intention of going over to Nashville during the four weeks' meeting. Inquiry was made at both railroad stations yesterday but neither of the agents had received instructions as to what rate to put on or anything in regard to the matter. As soon as the agents have been directed as to what rate to make we will notify our readers.

The L. & N. has put on a rate of one and one-third fare plus 25 cents, on the certificate plan, which makes the round trip \$3.11. According to this plan the holder of the ticket will have to attend the meeting and have the proper person to certify that he has done so, when his return to this city costs him only 97 cents. Tickets on this plan will be on sale any day of the meeting.

To Whom It May Concern.

"SIMPLE SIMON SIMPLE"

Clever Combination of Operetta and Farce.

The one genuine novelty of the theatrical season, "Simple Simon Simple," will be the attraction at the opera house next Thursday night, Oct. 18. "Simple Simon Simple" is a cartoon, musical extravaganza and is Nixon & Zimmerman's newest and best production. It is a clever combination of old English pantomime, operetta and farce, and requires a strong singing company of sixty people to interpret it. Simon Simple and his colored companion in mischief, Mose, are the central figures about whom the story revolves. Simon and Mose are two of the best known cartoons now before the public, and are to be seen every Sunday sporting in the colored comic supplements which every city newspaper issues on that day. Associated with these mischievous youngsters will also be found Judge and Mrs. Simple, Hans Spiegelberger, the joking German; Tony, the Dago; Swatem, the Cop, and numerous other cartoon personages, all of whom assist in making "Simple Simon Simple" the "frenzied fun festival" the New York Herald proclaimed it to be when in that city. The plot deals with the efforts of Simon's wicked uncle to get him to quit home and become his own master, hoping thereby to secure control of his nephew's share of an estate. Life with Sig Sauter's circus is the alluring bait which tempts Simon to leave his roof tree, but in the end he proves to his wicked uncle that he is not so simple as he looks, and the tables are turned in a surprising manner. Wm. C. Welp and Jerry Sullivan will be seen as Simon and Mose respectively, while Wally Clark, W. F. Smith, Walter Lieberman, George W. Lewis, Drury Recter, Maggie Baxter, Bessie Browning and Rachel Stirling ably sustain their various roles.
